Hi, I'm Krista Davis, RN, BSN. Nursing has always been more than a career for me—it's an opportunity to make a meaningful difference in the lives of patients and their families. Throughout my career, I've had the privilege of working in home health, hospice, and triage nursing, where I've learned the importance of compassionate communication, clinical expertise, and truly listening to the people I serve. I am passionate about providing personalized care and creating positive experiences for patients when they need support the most.

My goal is simple: to help every patient feel heard, understood, and confident in their care while delivering the highest standard of nursing excellence.

Outside of work you will find me out on the lake, working out at Burn Boot Camp, or relaxing with my husband and our four children, ages 29, 26, 13, and 9, as well as a 3 year old grandson.
