I'm a Family Nurse Practitioner with more than 20 years of experience in healthcare, including a background in occupational health, urgent care, and orthopedics. Before becoming an NP, I spent 13 years as a nurse educator, which continues to shape the way I approach patient care and education.

I believe great healthcare starts with building a relationship. I want to understand what matters most to each patient—their values, goals, and beliefs—and tailor their care around those things. I'm especially excited about the opportunity to see my patients on a monthly basis, allowing us to build trust and work together toward their long-term health goals.

Outside of work, I love spending time with my husband and daughters. We live in the country on 10 acres with our dogs, cats, and a dozen chickens! When I'm not caring for patients, you'll often find me gardening, crafting, or listening to an audiobook while I do both.

I'm excited to be part of the team and look forward to getting to know my patients and their families!
