Hello, My name is Misty, and I am so excited to join this team! I have been working in the medical field for 18 years

and the last 13 as a Medical Assistant. I graduated from Lakeshore College and have also taken Healthcare Administration coursework as I work towards my Bachelor degree. I enjoy working in the medical field because you can truly make a difference, and that's what matters!

In my spare time, I enjoy spending time with my 2 children, Hunter and Gianna. We are usually at a sporting event as my oldest is a 3-sport athlete, which means we rarely have days to rest! I am a sports fanatic and enjoy watching most sports. I also own and operate a Children's Clothing Boutique since 2024... I guess you could say I like to stay busy!
