With over 20 years of dedicated service in healthcare, Danae brings a wealth of experience and compassion to every role. Throughout a dynamic career, Danae has excelled as a CNA, Med Tech, LPN, and RN, working across diverse settings including long-term care, managed memory care units, MDS, dialysis, utilization management, and case management. This comprehensive background in holistic care coordination and patient assessment aligns perfectly with the mission of Sequoia, supporting seniors to age in place and ensuring tailored clinical experiences in Assisted Living Facilities.

Driven by a passion for helping others, Danae looks forward to further growth with Sequoia and the patients they serve. Outside of work, Danae enjoys time with family, including her husband and two sons, and finds joy in DIY projects, outdoor adventures, long walks with her beloved dog, and travel. Danae is also proud to be part of a large, lively family and cherishes the honor of being both an aunt and a great aunt, as well as sharing adventures and laughter with a close-knit group of friends.
