Hi everyone! My name is Morgan, and I am a registered nurse with experience in multiple different aspects of healthcare including cardiovascular health, memory care and dementia, hospice, and ICU experience as well.

I received my bachelor's degree in science of Nursing at Marian University in Fond du Lac, WI in 2018 and have been practicing nursing ever since.

My goal as a nurse is to promote and provide quality care, as well as be the biggest advocate for my patient population. Providing empathy and compassion along the way, my goal is to make a positive impact and difference on people's lives. I'm driven with a deep desire to care for others and support them during their most vulnerable moments. I truly love being a nurse, and helping others feel comfort during an uncomfortable time.

When I am not nursing, my favorite things to do are going to Crossfit, golfing, hunting, lounging by the pool, playing outside with or walking my 2 golden retrievers Sloan & Bueller, or going to my favorite vacation spot and enjoying the beach in Cape Cod eating seafood.

I am so excited to be a part of Sequoia and I look forward to working with you & your loved ones.
