Hello! My name is Pam and I have been a registered nurse specializing in geriatric and mental health since 2010.

I was fortunate enough to be Sequoia's first nurse, and so proud of the growth, success, and team that is now in place. I love my job and my work family...along with all the patients, families, and facility partners I come in contact with. Like they say... It is truly not a job if you love what you do.

In my non-working hours, I prefer to be a homebody or spend time with my two grandchildren, Beckham and Chandler, and my baby pomeranian, Vino. I live in the Appleton area and would love to get to know you and your families!
