My name is Kayla Guns, and I began my healthcare career as a Certified Nursing Assistant after graduating high school.

I earned my Bachelor of Science in Nursing from Bellin College in 2009, worked as a Registered Nurse, and completed my Master of Science in Nursing at the University of Wisconsin-Oshkosh in 2014. As a Nurse Practitioner, I have had the rewarding opportunity to work in various specialties, including family practice, psychiatric care, urgent care, hematology/oncology, and functional medicine.

Outside of work, I cherish spending time with my husband and children, camping in the summer, as well as baking and listening to educational podcasts.
