Hi, my name is Teal Calaway, and I am a family nurse practitioner. I have been in healthcare since I can remember. I started

as a CNA in 2013 and worked my way up to a family nurse practitioner in 2021. I am board-certified by the AANP.

I have always had a passion for helping others, and this job allows me to continue to help others every day. As a family nurse practitioner, it is my goal to help every patient to optimize their physical and mental health to achieve the highest quality of life across all lifespans.

In my personal time, I love spending time with my family and friends. Being a mother and watching my two children grow is my greatest pleasure. We enjoy traveling, exploring, and staying home!
