My name is Christine and I am a Registered Nurse. I obtained my CNA certification as a junior in high school and have been working in healthcare ever since. I became an LPN in 2021. I graduated from the ADN program at Fox Valley Technical College in 2022 and obtained my RN license shortly after. I attended the RN to BSN program and University of Wisconsin Green Bay and graduated with my BSN in May of 2024. I'm currently in school for my Doctorate in Nursing Practice on the Psychiatric Mental Health Nurse Practitioner track.

In my 10+ years of healthcare experience, I have worked in long-term care, family practice, and behavioral health. I strive to provide the highest quality of care to my patients and I have a passion for learning.

When I am not working you can often find me spending time with my husband and our black lab. I enjoy good coffee, reading, and spending time with my family.
