Hello, I'm Emily, a registered nurse. I have worked in many different departments in healthcare including registration, medical records, staffing, payroll, and even volunteering.

I have a Master's degree in Health Care Administration. I decided I wanted to be a part of caring for the patients. Therefore, I received my CNA, LPN, and then RN. I have worked on medical floors, ERs, ICU, and homecare. I enjoy getting to know those I care for, advocating for them, and empowering them with education.

When not working, you will find me, my amazing husband, our two kids, and our dog remodeling our cabin, fishing, hunting, spending time with friends, and eating ice cream.
