Hi! My name is Heather. I attended UW-Oshkosh and received my Bachelors in Nursing in 2012. I have worked the majority of my career within the Neuromedical/Surgical population in the inpatient setting. I have also worked in the Neurology Clinic as well as Family Medicine.

I started my healthcare career as a CNA in high school and knew right then that taking care of other people was my calling. I truly believe that as a nurse I am there to be my patient's voice, to advocate for them. When they are in their most vulnerable states is when they need us the most.

In my free time I enjoy spending time with my husband Michael and our four children; Sylas, Hadley, Elena and Reed. In the summer months you can find us at our kids sporting events and camping. In the winter months we enjoy ice fishing.

I am blessed to become a part of the Sequoia Family and cannot wait to meet you all!
