Hello! I'm Melissa, a Registered Nurse with over 10 years of experience in the healthcare field. I graduated from Northeast Wisconsin Technical College with my ADN and later Western Governors University with my BSN. My background includes caring for patients on an inpatient medical oncology floor, an outpatient oncology clinic, and in a skilled nursing facility. Through those opportunities, I have been shaped into a compassionate, resilient, organized, and empathetic nurse. I am passionate about providing patient-centered care and building strong relationships with patients and their families.

Outside of work, I am a wife, proud mom of two boys, and a dog mom. You can usually find me barefoot outside, gardening, playing volleyball, golf, or baseball, and playing with animals. I also like being near the water (swimming, kayaking, boating, you name it!), camping, and cycling (my 2026 goal is to complete a Century ride!). If I am inside, I'm baking or cheering on the Packers or Brewers!

I look forward to connecting with my team and patients and providing the best care I can!
